

Exercise 2015-9EH-00003(1)

- (1) Write each of the following equations in standard form and draw them on the same set of axes:

Use the given graph paper.

(a) $y + 2x - 1 = 0$

(b) $3y - x = 6$

- (2) Find the equations of the following straight lines:

- (a) through the point $(0 ; -1)$ with a gradient of 2.

- (b) through the points $(4 ; 0)$ and $(-2 ; 6)$.
